

## Job Vacancy

Job title: **Assembly Technician**  
Reporting to: Assembly Manager  
Objective: Work to OTD targets building brake and clutch components for Performance OEM and motorsport customers.

### The role:

This role will be based in our Assembly department, working with a team who are responsible for building motorsport and performance OEM brake components. The role requires the candidate to build components manually, working at a consistent work rate, ensuring that components are built to spec with no quality defects and in a timely manner.

### Key competencies

- Previous Assembly skills, preferably gained from working in a motorsport environment
- Able to understand how braking systems work
- Must be able to read English manufacturing specs
- Can use hand assembly tools (torque wrenches etc) and use measuring equipment
- Ideally, the candidate would have experience working with a production engineering team, assisting in creating build specifications
- Minimum 5 years' experience working in a similar environment
- Good understanding of engineering materials
- Gained a craft apprenticeship or a mechanical NVQ
- Good knowledge of fundamental engineering principles

### The candidate:

- Will be a team player, who is self-motivated and who can work independently
- Flexible, shares knowledge with the Team and other departments
- Good communication skills
- Excellent problem-solving skills
- Ability to work well under pressure
- Meticulous attention to detail
- Practical and a "hands-on" Technician who is able to build and strip components

### Additional Working Hours

- Work overtime when required, weekend working etc.

### Hours:

Monday to Thursday: 08.00 - 17.00  
Friday: 08.00 - 13.00

To apply, please send a covering note along with your CV to [Vacancies@Alcon.co.uk](mailto:Vacancies@Alcon.co.uk)

**Closing date: 7<sup>th</sup> January 2022**
